

# AS350 B3

## Rear cargo door switch

### Description

Swiss Helicopter Engineering has developed and certified in cooperation with Swiss Helicopter Maintenance ([www.shm-ag.ch](http://www.shm-ag.ch)) a rear cargo door switch kit. This optional system triggers a caution message on the warning panel in the cockpit if the rear cargo door is left opened or is not properly closed. The kit is an extension of the original system from Airbus Helicopter indicating when cargo doors are unlocked.

Swiss Helicopter Maintenance

### Modification details

- ✓ No modification of the instrument panel. System uses helicopter original caution light on the warning panel
- ✓ Kit is compatible with upward and forward opening rear cargo door
- ✓ Engineered from customer experience

### Approvals

Approval type	Reference number	Authority	Aircraft approved
Minor Change	MCA-350-000013	EASA DOA - 21J.730	AS350 B3

Approval recognized by FAA, TCCA and ANAC via bilateral agreement. Approval can be validated to other civil aviation authority and extended to other aircraft on request.
